

WEE CARE NEWSLETTER

February 2020

Dear Parents,

We have been experiencing some problems having parents update the state mandated forms. This is not a requirement set by the center, but rather by our licensing agencies. **We must have Emergency Contact and Agreement forms updated every six months and Health Appraisals must be updated on an age appropriate basis (each time you take your child to the doctor for a well check).** We recently have had several instances where parents were unable to be contacted by the center at the numbers listed on their child's Emergency Contact Form. **Please be sure we have your correct work numbers on your current Emergency Contact Form.** If your information has changed, or the names of the persons authorized to pick up your child have changed, please request a new form! Regarding age appropriate health appraisals, we will continue to send a form with reminders approximately one month before your due (expiration) date. Please keep in mind that DHS, our licensing agency, has advised us to deny admission to any child out of compliance with their regulations.

The children have really enjoyed their daily gym sessions. It really helps to release some energy after having our outside time limited because of the winter season. It is very important for the children to have appropriate footwear - sneakers are best! It is very difficult, if not impossible, to participate in all aspects of gym class in dress shoes.

February's **Scholastic** book club orders went home recently. It's not too late to place orders. Thanks to all who participated in the classroom Valentine's Day parties – the children and teachers really enjoyed all the goodies!

The children had a wonderful dental health presentation this week by Pottstown Family and Pediatric Dentistry. The importance of proper brushing and healthy snacks was taught in a fun and informative way.

Finally, information about Kindergarten for 2020-2021 will be sent home shortly. Also, believe it or not, summer camp is right around the corner – we have many exciting adventures on and off-site planned for all ages! Thank you!

Happy February!
